Flexible Packaging Requires Constant Flow of Product to Case Packers

This system required critical spacing as well.

This line has flexible packaging snack bags transported in four (4) lanes on a slight incline that is fed from six (6) baggers through a metal detection system then to three (3) case packers. The spacing of the snack bags was a critical requirement from the customer as a continuous flow to the case packers was key. Multi-Conveyor used a very small pitch powered transfer to help regulate the process.

Now that's one heckuva custom conveyor!

Need a custom conveyor? No problem. That's what we do.

Multi-Conveyor engineers will streamline the process. Their experience with custom systems assures smooth rollout of your custom project. We totally engineer and integrate systems from design to final layout. And, chances are, we've already built systems that meet or exceed your current need. [Learn more...](#)

Thank you for your time and business

It is always appropriate at this time of year to thank you, our valued customers and business associates, for your continued support of Multi-Conveyor. We are in complete appreciation of your dedication and will continue to serve you with the utmost engineering and design excellence, manufacturing the quality products that you deserve.

In case you've missed any of our recent video announcements, please [view our complete video gallery now.](#) Remember, a video or picture is worth 1,000 words - but they just take less time to view!

Read all of the latest News from Multi-Conveyor

If you find our e-newsletters valuable, please feel free to share our content with your peers who would be interested in learning everything new from Multi-Conveyor. We encourage you to send [this link](#) to your business associates. On [this page](#) they can subscribe to their own e-newsletter Opt-In *and* read all of our latest news that has been posted this year.

We appreciate your continued interest and look forward to hearing from you soon. Call us. Let's discuss your next project: **1-800-236-7960.**
